## — AIM OF THE FORUM 论坛宗旨 —

Sustainability in tourism relies on the implementation of sustainable tourism policies, engagements of local communities, the promotion of sustainable practices in businesses, the heightening of tourist awareness, and collaborations among tourism stakeholders.

旅游业的可持续性依赖于可持续旅游政策的实施、当地社区的参与、商业可持续实践的推广、提高游客意识以及旅游利益相关者之间的合作。

Balancing preservation, people, and productivity can support the industry's long-term viability and contribute to the achievement of the United Nations Sustainable Development Goals. Through preserving natural and cultural resources, promoting the well-being of local communities, and fostering positive social and cultural transformation in destination societies, tourism can create a positive and long-lasting impact on the productivity and quality of life of both tourists and locals.
