Embracing the Age of Traveller Power

By 2030 the world will be home to an extra billion people, 20% of whom will be travelling. In Asia Pacific travel is predicted to grow at more than 6% each year - more than any other region – which means it is leading in the Age of Traveller Power. What does the travel ecosystem need to do to meet this surging demand? What’s in store for the next decade? How should travel players evolve to keep ahead?

Amadeus is unique because we sit across the entire travel ecosystem – including airlines, travel agencies, airports, hotels, rail companies and more. We have the industry know how, extensive portfolio, and right strategy to steer the future of travel in Asia Pacific.

We are here and committed to supporting the economic growth of the travel industry.

JOIN PATA TODAY

PATA responds to a request for a task force from a government-category member (such as the Ministry of Tourism). The key reason for this request is the need to ensure that the recommendations and observations within the task force are fully studied and have a realistic chance of implementation. The composition and execution of each task force visit is tailored to the specific needs of the destination and will culminate in the publication of the PATA Task Force Report.

Such a request should be formalized in writing on an appropriate stationery and be addressed to the CEO of PATA.

PATA is committed to acting as a voice for our members to leave a positive impact on the destinations in which they operate. We aim to demonstrate leadership by speaking on behalf of our members on issues facing the travel industry and sustainable tourism issues that need to be addressed.

PATA Chapters are established throughout the world to assist in the fulfillment of the objectives of the Association. They are local community organizations of travel industry professionals who join in a co-operative endeavor, within the framework of PATA to develop travel and tourism in, and within the Asia Pacific region.

In total, 43 active PATA Chapters and 13 Student Chapters around the world assist local travel industry communities.

The PATA Charity Foundation is a natural extension of PATA’s dedication to the principles of conservation and social responsibility, which are part of the Association’s charter.

It is comprised of four formerly French seaside enclaves in South India: the towns of Puducherry and Karaikal, Yanam on the Bay of Bengal and Mahe on the Arabian Sea. Puducherry is a multidimensional to say the least. A place of history and preserved colonial charm. Sandy beaches, clean promenades, temples, monuments, heritage villas, quaint old-world town planning, spiritual mystique and a lingering French ambience define its unique character. It is definitely a place to unwind or just be a great weekend getaway from Chennai or Bangalore. Further, it is in close proximity to historically renowned south Indian towns and cities known variously for their art, religious and cultural heritage as well as great natural beauty. But it is beginning to make news as an investment destination holding forth much promise now and in the years to come in many key sectors. We now invite you to prosper in Puducherry as well.
